

3. UJDRUM/What to Reveal to HIS - [ ] asked if UJDRUM planned to tell his HIS contacts all about the KAMAH operation, which seemed necessary (as a matter of form) since WICHODIL is regarded as HIS controlled and because UJDRUM no doubt has been identified as the UPHILL C/O. FLEMING said that as strange as it might seem, UJDRUM was not going to mention Fall BARRE, since his cover story vis-a-vis the HIS is that he does various research jobs for UPHILL, but is not a cane officer and handles no comms. FLEMING agreed this was pretty silly, but said it was too late to try to make the UJDRUM/UJDRUM operation make sense since it never had made sense from its inception.

4. Ernie RECHKEMER - FLEMING gave [ ] a memo explaining various names that had appeared in the telephone coverage on UJDRUM's office telephone in Heidelberg. It was noted that RECHKEMER, mentioned several times in connection with letters from WICHODIL, is actually the letter box to which WICHODIL sends letters to UJDRUM. FLEMING commented that RECHKEMER was an old SD type, known to UJDRUM from the war, and that he apparently was used as a letter box and other odds and ends of a support nature.

5. Oberaudorf Surveillance - [ ] advised FLEMING that we planned to start surveillance coverage effective the afternoon of 11 September and that there could be a "Carat" on hand that could detect any UJDRUM W/T transmissions.

6. UJDRUM/Initial Entry - FLEMING started a brief discussion on this subject which [ ] had to break off before it really got started in order to get back to the office. FLEMING suggested that we get together 12 September with BERNHARDT to go over the details. FLEMING said UPHILL would be able to come up with approximately 7 officers, witting of UJDRUM, who could be used in the operation in order to cover possible routes of approach to the house at the most critical time. FLEMING said he thought it would be possible to have all of the UPHILLers backstopped with the local police in advance and that UPHILL also would be able to provide a radio car in case of real trouble. It was agreed details would be discussed with BERNHARDT the afternoon of 12 September.

7. Initial Entry in Oberaudorf/UJDRUM Letter to Ascham - FLEMING advised [ ] in view of his planned meeting with Ascham, UJDRUM planned personally to turn over the written request for KUBARK support to Ascham. See MUNI 7274.
